## CNC MILLING CENTERS

**Mazak HCN-5000 Smooth 4-Axis**  
Machining envelope of 24"x24"x4" with 120 tools, featuring four-sided tombstones

**Mazak HCN-5000 4-Axis**  
Machining envelope of 24"x24"x4" with 80 tools, featuring four-sided tombstones

**Mazak PFH-4800 4-Axis**  
Machining envelope of 20"x24"x4" with 40 tools, featuring four-sided tombstones

**Mazak V414-32**  
Machining envelope of 16"x32"x18" with 24 tools.

*\*All milling centers are equipped with touch probes for enhanced accuracy, consistency, and faster set-up.*

## ADDITIONAL CAPABILITIES

**Amada HA250W Automatic Production Band Saw**

**Manual Mills / Lathes**

**Glass Bead Blaster**

**2 Vibratory Deburr Machines**

## CNC TURNING CENTERS

**Mazak QTN-200 MSY**  
Multi-spindle center with a Y-axis, 2" diameter through spindle, 22" between spindles

**Mazak 250 MSY-II**  
Multi-spindle center with Y-axis, 24 tools; 3" diameter through spindle, 24" between spindles

**Mazak Quick Turn 8**  
For smaller turning operations; 1 1/4" through spindle, 4" diameter chucked, 10" long

## CUSTOM FLOW WATERJET

**Mach 4 Integrated Dynamic XD Waterjet System**

- Dynamic machine head for advanced beveling and 3D capabilities, eliminating the need for secondary operations
- 6' X 10' bed size, capable of cutting any material up to 3 1/2" thick
- Automatically compensates for natural taper to ensure a straight edge throughout the cut

## QUALITY

**ISO 9001:20015 Certified**

**Hexagon 7107 CMM**

Equipped with an advanced multi-sensor controller

**Gagemaster Optical Comparator**
